

# Managed Database Services

Reduce overhead and get the fastest, easiest access to DI data.

## Powered by Drillinginfo Data, Built for You.

With DI Consulting, unlock a fully managed database service powered by Drillinginfo data. Let our experts build, load, and manage your database with real-time data updates, centrally stored and ready for analysis. Eliminate clunky downloads and complicated integrations, reduce operational overhead, and always stay up-to-date on the information you need.

### Key Benefits:

- Real-time data updates, centrally stored and ready for analysis
- Live connection to your applications and workflows
- Easier access to core subscription data including production, well, completion, rig, permit and land data
- Spatially enabled for your maps
- Email alerts so you know the second your data has finished updating
- An evolutionary partnership with DI data management experts

**PROACTIVE**

**EFFICIENT**

**COMPETITIVE**
