

# Make smarter and quicker business decisions with Drillinginfo

Find the best deals faster with Drillinginfo. Business development professionals have the tools they need to monitor the competition, maximize production and ROI, and make smarter decisions quickly and confidently.

## Make Every Dollar Count

- Make more informed acquisition decisions by understanding the potential economic value of open acreage
- Identify best practices in drilling and completions to maximize production and ROI

## Determine Your Next Move

- Pinpoint the most promising acquisition targets based on acreage quality, completion techniques, leasehold positions, and economics
- Access detailed basin-level reports that answer the most important questions about acquiring acreage and investing in an area

## Insights Before the Competition

- Monitor activity by tracking the only rig count to include 95% of the U.S. rig fleet in near-real-time
- Perform recon in an area by visualizing active players, leasing and permitting activity, and production in an area of interest – all without leaving your desk

PROACTIVE

EFFICIENT

COMPETITIVE

By monitoring the market, Drillinginfo continuously delivers innovative oil & gas solutions that enable our customers to sustain a competitive advantage in any environment.

Drillinginfo customers constantly perform above their competitors because they are more efficient and more proactive than the competition.
