

DRILLINGINFO MOBILE FOR OILFIELD SERVICES

DRILLINGINFO IS EXTENDING THE POWER OF THE LEADING OIL AND GAS DATA AND ANALYTICS PLATFORM BEYOND THE OFFICE WALLS AND GOING MOBILE.

To compete in today's competitive Oilfield Services (OFS) environment, companies can no longer rely on reactive strategies to drive sales. Building a sales engine that increases deal velocity and close rate requires a proactive approach that takes actionable business intelligence and delivers quality leads and opportunities. With native Android and iOS apps, DrillingInfo will be there to support your business whether you are in a meeting, out in the field, or on the move.

PROACTIVE MONITORING WITH VIRTUALSCOUT™

The days of spending hours scanning through long rig reports for the information you need are over. The all-new VirtualScout™ delivers highly customized notifications about rig and permit activity that is relevant to you—keeping you well-informed with minimal effort.

UP-TO-DATE NATIONWIDE RIG, PERMIT, AND DUC DATA AT YOUR FINGERTIPS

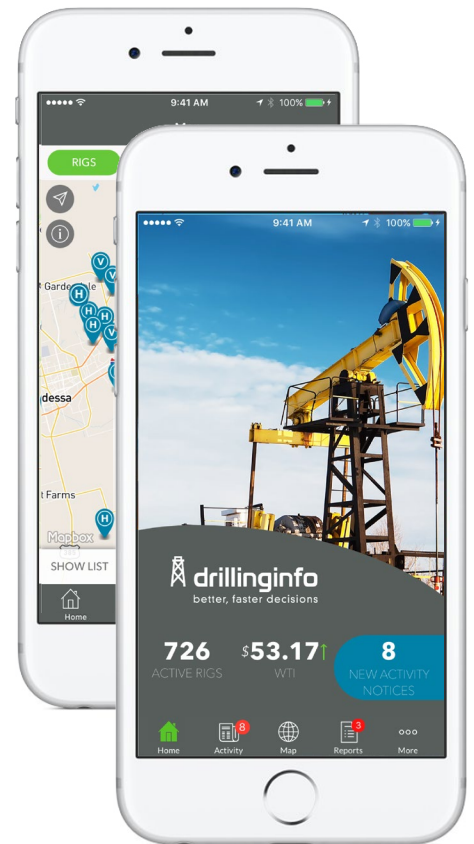

Stop wasting time with static information and rely on Drillinginfo for rig, permit, and DUC intelligence that is current and updated daily. With coverage of over 95 percent of active rigs using GPS tracking and contractor reports, the wait for the information you need is over.

CUSTOM INTERACTIVE REPORTS: COMFORTABLY FAMILIAR, YET COMPLETELY NEW

The rig, permit, and operator reports you know and depend on are now supercharged to deliver custom content for less filtering and more action. Subscribe to the reports you want and personalize them to deliver the intelligence you need via mobile app, PDF, or Excel. Want to get them daily, weekly, or monthly? It is all up to you.

COMPETITIVE SCOUTING INTELLIGENCE

Enter competitive intelligence while you are in the field to create alignment across your organization. With custom scouting reports shared only with your team you will monitor who you are up against and other critical sales details with ease.

FEATURES AND BENEFITS

Feature	Benefit
Turn-by-turn directions	Get to the rig efficiently with turn-by-turn directions to over 95% of active rigs
WTI price	Easily stay on top of the price of oil in the app you use everyday
Active Rig Locations	Stay current on active rig locations with GPS precision
Permit Data	Stay ahead of the competition with six months of permit data
DUCs (Drilled but uncompleted wells)	Understand who and where DUCs are for a competitive advantage on the wells that will come on line first
Operator and Driller Contact Information	Easily reach out to prospects with readily available contact information for each rig and permit
VirtualScout™ Push Notifications	Integration with the Drillinginfo web platform brings customized rig and permit activity notifications sent straight to your favorite device
VirtualScout™ AOI and custom filters	Integration with the Drillinginfo web platform delivers over 60 different rig, permit, and custom area of interest (AOI) filters
Activity Feed	Stay organized with updates from your area of interest in an easy-to-read format
In-app Custom Filters	Find just the right rigs and permits you are looking for with over 20 different in-app filters
Saved Rig and Permit Searches	Setup your custom permit and rig searches once and have one click access for updated intelligence
Interactive Reports	Subscribe to rig, permit, or operator reports and customize them to your needs for a more powerful yet familiar tool
Scouting Reports	Improve knowledge sharing across the organization by adding field intelligence to each rig, viewed only within your company
